SUMMARY

Software Developer with hands-on experience building, enhancing, and maintaining client-facing web applications. Proficient across the entire development lifecycle, specializing in complex backend business logic, database optimization, and dynamic workflows. Proven track record of streamlining deployments through CI/CD pipelines, ensuring system reliability, and delivering high-quality, reusable code within Agile team environments.

TECHNICAL SKILLS

- **Languages & Frameworks:** PHP (Laravel, CodeIgniter), Python (Django), JavaScript (React.js), HTML/CSS, SQL
- **Tools & Databases:** Git, Jira, CI/CD, API, MySQL, SQLite

WORK EXPERIENCE

Software Engineer

July 2025 – Present

Logiprompt Techno Solutions, Trivandrum

- **Web Application Development:** Led development of client-facing Laravel/CodeIgniter applications, engineering a pharmaceutical delivery platform with Swagger APIs and building the Edusoft ERP system with integrated eSSL biometric attendance and examination workflows.
- **Code Quality & Collaboration:** Delivered scalable, reusable code using Git and Jira, while streamlining deployments through CI/CD pipelines to consistently meet deadlines.

IT Admin

Mar 2025 – Jun 2025

Esaf Cooperative, Thrissur

- Gained hands-on experience in IT support, troubleshooting, and system maintenance.
- Collaborated with the IT team and involved in daily IT administrative tasks and learned to work in a structured corporate environment.
- Assisted in monitoring network infrastructure, including firewall logs and CCTV systems.

PHP Full Stack Intern

Sep 2024 – Dec 2024

Inmakes Infotech

- Built CRUD modules and integrated MySQL databases using PHP, Laravel, and CodeIgniter.
- Implemented user authentication protocols, form validations, and interactive internal tools.

PROJECTS

Pharmaceutical Delivery Application

- **Architecture & Stack:** Developed a 6-role enterprise delivery platform using Laravel, MySQL, and JavaScript.
- **Core Features:** Engineered modules for ordering, returns, GPS tracking, invoice uploads, and an automated loyalty system.

Edusoft ERP Software

- **Architecture & Stack:** Developed a comprehensive institutional management platform utilizing CodeIgniter 3, MySQL, and JavaScript.
- **Core Features:** Engineered workflows for staff and student management, integrating eSSL biometric devices for automated attendance and tracking examination lifecycles.

Ecommerce Website

- **Architecture & Stack:** Designed a full-stack, decoupled e-commerce solution using Python, Django, React.js, and SQLite.
- **Core Features:** Integrated secure authentication, interactive browsing, dynamic cart, checkout, and external payment gateway APIs.

EDUCATION

Bachelor of Computer Applications (BCA)

University of Kerala | Graduated: 2023 | CGPA: 6.43 (61.08%)

Higher Secondary Education

DHSE Kerala | Graduated: 2020 | Aggregate: 72.92%

ADDITIONAL INFORMATION

- **Certifications:** Python Full Stack Development Certification — NSDC, 2024.
- **Languages:** English, Malayalam, Hindi, Tamil.
